**Primary Purpose:** The Respiratory Therapist assesses, plans, coordinates, and evaluates respiratory care.

**Education:** Graduate of a two or four year AMA approved Respiratory Therapy program with RRT credentials.

**Required Skills and Knowledge:** Demonstrated knowledge of the growth and developmental needs of adolescent, adult, and older adult/geriatric client populations, the necessary clinical and technical skills to provide care for medically complex clients with chronic illnesses and physical disabilities. Assumes charge therapist responsibilities in the absence of a Lead Therapist.

**Licenses and Certifications:** Currently licensed to practice as a Respiratory Care Practitioner in the State of Ohio. BLS required, ACLS desired.

### **About UC Medical Center (UCMC)**

Opening in 1823 as the country's first teaching hospital, the mission of UCMC was to provide care for the aged, indigent and orphaned. Today, this mission continues. UCMC has an international reputation, bringing thousands of people, from the region and around the world, to Cincinnati to receive care from world-renowned physicians in state-of-the-art medical facilities. UCMC is the area's only verified Level 1 Trauma Center.

### **About West Chester Hospital**

As one of the Greater Cincinnati area's newer hospitals, West Chester Hospital was designed with our patients' comfort in mind. Conveniently located and equipped with large private rooms, soothing environments and the most technologically advanced medical equipment available today, we are committed to delivering pleasant patient experiences and positive medical outcomes.

### **About Daniel Drake Center for Post-Acute Care**

Daniel Drake Center for Post-Acute Care, a member of UC Health, is the region's premier provider of long-term acute care offering a complete range of inpatient and outpatient services including medically complex care, ventilator weaning/pulmonary care and diagnostic services, skilled nursing, assisted living, wellness services and research.
